

TRIPWIRES FASTEST APPREHENSION YET.

LA County Sheriffs – Bassett , Ca. January 29,2008.

LA Sheriffs today applauded the new tripwire units in the fastest and most prosperous grab to date.

Within an hour of deployment the tripwire unit deployed, alerted officers to the location which was regularly graffiti plagued by local juveniles.

The officers used some ingenuity and hid the unit inside an old fire hydrant and placed it on the site taking in a favorite wall area. All three offenders were detained and booked by the COPS bureau.

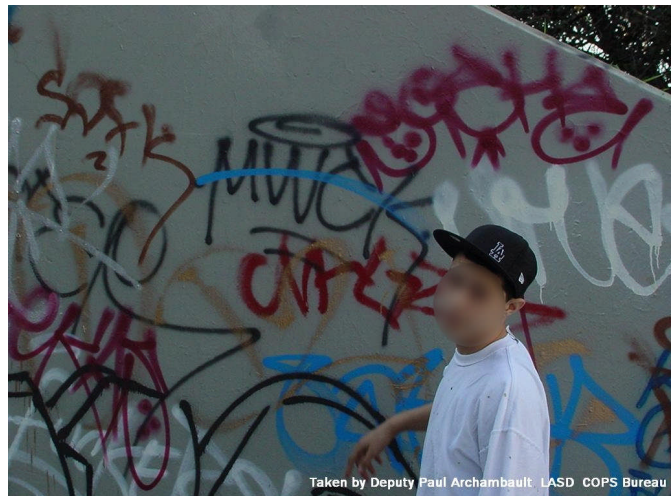

Within an hour of leaving the unit they returned after the alerts came through to find 3 male youths between the ages of 14 and 17 from the area red handed “literally”. The three confessed to most of the cities graffiti attacks and each were charged with felony counts of criminal damage exceeding \$10,000 usd each, bringing a tally of around \$30,000 to date.
