*Appraisal of the tripwire system.*

*My name is Brendon Lloyd and I am a Contracts Inspector with the City of Greater Geelong. One of my duties is to assist in the provision and maintenance of surveillance equipment for Council for both fixed and mobile based systems.*

*The Tripwire cameras we operate have been an incredible resource to the City over the past 12 months in their versatility & ability to give instant advice of offences. Their use has allowed attendance to issues in real time, often apprehending offenders live during the offence.*

*We have had some excellent wins over the years for our community with the most recent being the apprehension of a number of felons who were actively breaking into city parking meters and taking the cash contents. The damage alone over 4 weeks was close to \$50,000 and we had no real means of stopping this activity from continuing. We deployed two of the cameras and within 4 days caught two suspects live on site with the others arrested over the next few days.*

*Other uses of the units in our city have included....*

*Graffiti & vandalism*

*Drug offender surveillance*

*Youth at risk monitoring.*

*Theft of Copper*

*Vandalism to City Property (Pavilions and BBQ areas)*

*Anti social , truant and suspect behavior (minors)*

*Surveillance of victims homes (Intervention order violations)*

*I would encourage others to consider utilizing the Tripwire units for their own graffiti or other community safety issues as our experiences have proven that with the support of our local Police, great results can be obtained.*

*Yours sincerely*

A handwritten signature in black ink, appearing to read "B C Lloyd". The signature is written in a cursive style.
